You will have the choice of making a table runner that will be close to completed in this class or start making your blocks for the Walk this Way Quilt. The Wonky Log Cabin Quilt is great for both the precise, linear sewer and those who need a little wiggle room. The helpful ruler from Creative Grids takes all the guess work out of the wonkiness and trimming up after each round means that even if your seam allowances are imperfect, the next row is ready to start back on track and a final trim after the last round means all blocks are the same size so sewing the blocks into a bigger project is a breeze.
