Bernina Machine & Software Guide Classes

Congratulations on your purchase of BERNINA from Sew Much More. If you purchased your machine from us, the Guide classes are available for you at no additional charge. The Guide classes are designed to help you learn all of the features on your new machine and how to use them. The first class explores SEWING features. The second class examines features that can be useful in QUILTING – the first two-thirds of the class focuses on the sewing features and the final one-third explores using the embroidery module in quilt making. The third class examines features and settings using the EMBROIDERY module. **Please note not all machines need all three days on instruction. Please start with the Sewing Class unless you have an Embroidery Only machine (B500 or B700) then please register for the Embroidery class*

- We would appreciate it if you purchase your supplies at Sew Much More. We will be happy to assist you in gathering all the necessary materials – and give you a 15% discount!
- Using your own machine for classes is ideal, so that you are familiar with the machine and how it works, but if that is not possible, we have sewing machines available for your use.
