Special Instructions:

Prior to the class, please download the PDF pattern found in this supply list and print it on laser paper. Clip or pin it to your muslin sandwich. Use small straight sewing machine stitches and follow the pattern of black lines directly on the paper. This will make it easier to remove the paper. When completed, your quilted sandwich should look like the plain sample in back of the color photo. You can finish off the edges with a zig zag stitch if you wish.
